SIES High School, Matunga

SOME IMPORTANT INFORMATION ON THE SCHOOL

Category: Day School  
Address: K. A. Subramaniam Road, Matunga, Mumbai – 400019  
Tel.: +91-22-2401 0081  
Website: www.sieshsm.net  
Syllabus: Maharashtra Board (S.S.C.)  
Grades: Pre-primary to Class X

HISTORY

SIES High School was instituted in 1932 by the South Indian Education Society (S.I.E.S.). A co-educational school with English as the primary medium of instruction, the institution has been recognised by the Municipal Corporation and Government of Maharashtra and also went on to acquire the coveted ISO 9001:2000 QMS certification in the year 2004.

- Library
- A well-equipped laboratory
- Computer Science Department
- Auditorium and school hall
- Sports Galleria
- ISRO Exhibition Centre, which houses exhibits of space vehicle modules
- Smt. Elizabeth Mathai Science Block, Light and Sound Centre

NOTABLE ACTIVITIES AND EVENTS

- **Language Lab**: This has been introduced with the objective of enhancing the communication skills of students and improving their diction and pronunciation. The programme includes teaching two new words during every morning assembly, News Hour (where children read out the news and answer questions based on them) and model reading.

- **Women Empowerment Programme**: This was celebrated in the form of Naari Shakthi Diwas. The event included a fashion show, skits, and singing and dance performances, where girl students participated with their mothers. These activities were aimed at strengthening the bond between the mothers and the daughters. The event also saw a talk delivered on the topics of ‘Mother–daughter relationship’ and ‘Dealing with the problems of a growing girl child’.

- **Water Exhibition**: This event is one of the biggest highlights in the history of the school. A total of 40 exhibits based on the theme of water and water conservation were shortlisted in a preliminary round for the main event which was held in November–December 2012. Besides, a series of inter-school competitions — such as drawing contests, elocution and extempore speaking, and essay writing — lectures, slide shows, practical demonstrations, and interactive sessions, with this theme as the topic, were conducted and received a bumper response from various schools across Mumbai and Navi Mumbai. The chief guest of the event was none other than Padma Vibhushan Dr. R. Chidambaram, Principal Advisor to the Prime Minister of India. The overall objective of the Water Exhibition was to sensitise one and all towards the importance of water and its conservation and help them carry forward the mission of ‘Water is Life’ with a special pledge.

**FROM THE PRINCIPAL’S DESK**

We believe in education beyond the world of academics. That is why we endeavour to keep bringing out events such as the (aforementioned) Water Exhibition and many more. We encourage our students to make a difference to our country — and thereby make a difference to the world — and spread the fragrance of their talents across the globe.

Mrs. Kalyani Arumugam
